Thanks Yvette.

Sure I can put together a couple of slides talking about the phthalates.

I'll let Maiko and Tony know about the date for the briefing and forward the invite for that day.

Hi All,

I don't know if you are working on this request but given the briefing, I'm wondering if we can provide an update on some of our chemicals – just a status at this point.

Ideas –

- Formaldehyde (Rehan)
- Phthalates (Collin)
- TCEP (Karen)
- Others?

We'd likely have to develop a couple of slides for each.

Let me know what you think?

Collin – I thought about cumulative risk assessment but we have to brief Mark/ECRMD first. I tee'd this up for Jan. 24<sup>th</sup> – 10 am meeting.

- Yvette

What about the cumulative risk assessment?

**Subject:** Request - OPPT IO General topics - needed by 2 pm today  
**Importance:** High

Hi All,

On Jan. 18<sup>th</sup> we have to brief Michal at the OPPT IO Tues. general. We are scheduled to give updates every 3<sup>rd</sup> Tuesday. The topics do not have to be substantial. At the general in Dec., we gave a dioxane presentation.

- What topics would you like to brief out on?
- Do we have materials to share for any of the suggested topics?
- Would you be willing to do the briefing or have a staff person give it?
- Should we pick one of the science team briefings? – These have not been shared with OPPT yet.

I have to give briefing slides to the OPPT IO by COB Thurs.  
Please provide suggestions by 2 pm so I can vet them with Mark.

Thanks,  
Yvette
